DR ASHWINI G B

*Consultant Reproductive Medicine and Scientific Director,
Aspire Fertility Center, Bengaluru*

Dr Ashwini G B studied MBBS in 2001 from JJMMC Davangere and MS in obstetrics & gynecology in 2006 from Kasturba Medical College in Manipal. She has received a fellowship in reproductive medicine in 2008. In 2007-2008 she did a subspeciality training in reproductive medicine at Bangalore Assisted Conception Center. In 2010-11, she worked as a junior consultant at Gunasheela Surgical and Maternity Hospital. From 2011 to 2013, Dr Ashwini served as a consultant in reproductive medicine at Advanced Fertility Center.

Infertile couple with Globozoospermia was given ICSI treatment

A couple facing infertility visited Dr Ashwini. It was observed that the husband suffered Globozoospermia, a rare entity with less than 0.1 per cent incidence. The patient was treated with ICSI and with calcium in culture medium for activation of oocytes. This helped the patient conceive and after a successful nine-month pregnancy, she gave birth to a baby girl.
